LIVESTOCK MOVEMENT AND HEALTH RULES & CONDITIONS

Please co-operate with the Show Livestock Convenor and the stewards to help ensure that the requirements of BCMS and ScotEID are met.

The notes for MV & CAE, SGRPID GUIDANCE, CATTLE MOVEMENT & BRUCELLOSIS are given on the advice of the AHVLA to assist you in preparing for the show. If you are Accredited, your returned entry form must include a photocopy of your MV or CAE accreditation.

The Dornoch Links show ground does not carry livestock except on show day. We have informed SRUC Veterinary Services, PSGHS, of our intention to hold this show and have their authorisation.

MV & CAE ACCREDITATION SCHEMES

Photocopy of your certificate, if current on show day, sent with your entry …... OR
Photocopy of your current certificate of accreditation must accompany MV & CAE accredited stock on show day.
All sections must be completed in full.
Forms must be signed and dated.
Ear tag numbers of all sheep included.
There can be up to 20 entries on one form.
The Livestock Convenor must inspect the certificate prior to unloading.
The SRUC Premium Sheep & Goat Scheme rules will be enforced from the animals' arrival until departure.

BRUCELLOSIS

Isolation pens will be on site for animals, which calve or abort. If premature calving or abortion occurs the APHA will be informed. All other bovines from the same registered premises will not be allowed to compete further in the show.

SGRPID

THE FOLLOWING NOTES ARE REPRODUCED FROM SGRPID GUIDANCE NOTES.

- The names and addresses of all competitors and other persons handling stock at shows should be recorded by the person responsible for the stock and retained by organisers for three months beyond the date of the event. This information should be provided on request to the APHA, their staff or local authority animal health inspector.
- Any sheep and goats moving to shows must be individually ear tagged/tattooed in accordance with SGRPID guidance. The movement to and from shows must be reported to SAMU, Dumfries (Tel: 0300 244 5888 e-mail samu@gov.scot) with the individual ear numbers listed, as a movement from one premises to another is involved. This is the responsibility of the owner – not the show organiser. Stock may be inspected at shows.
- Cattle moving to and from shows must have their own movements notified to BCMS or ScotEID.
- Animals moving to shows for the first time will not have to be kept separate prior to moving to the show irrespective of whether any other livestock has been moved onto these premises in the 13 day period immediately before moving. If attending only one show within any one 13 day period the animal will not require to be held separately on return from the show, nor will the return home trigger a 13 day standstill for any other animal on the holding. Also, animals may move from show to show or may return to their usual premises of residence without triggering a 13 day standstill, providing they are kept in separate facilities under an approved segregation agreement with SGRPID.

- The transit of animals (Cleaning & Disinfecting (Scotland) Order 2000) applies to vehicles taking animals to and from shows.
- We have reproduced the notes above on the advice of APHA to ensure all exhibitors are aware of the current regulations.

CATTLE MOVEMENTS

The APHA has provided guidance note for shows regarding notification of cattle movements. We have registered the Dornoch Links Showground on the Cattle Tracking System and have barcode labels showing holding numbers and showground address.

DOCUMENTS YOU MUST BRING TO THE SHOW ARE:

- Single page passport (CPP52)
- Chequebook style passport (CPP13)
- List of names & addresses of all stock handlers

When an animal moves to or from the showground the following steps need to be taken:

- Keeper reports movement off holding to ScotEID or BCMS
- Livestock secretary reports movements on and off showground
- Keeper reports movement back on to holding to BCMS or ScotEID within 3 days of show.

At each stage the movement summary section on the passport must be completed.

Please use black ink when completing movement cards, to make it easier for the scanner at ScotEID to read. ScotEID is content for the showground to use the "market movement" box to report the movements of animals on and off the showground on the same day. We will use ScotEID instructions for completion of the movement cards.

SHEEP & GOAT MOVEMENTS

DOCUMENTS YOU MUST BRING TO THE SHOW ARE:

- The white and yellow copies of the completed Scottish Sheep & Goat Movement Document
- For MV/CAE Accredited animals - original, valid MV/CAE Health Status Report
- List of names and addresses of all stock handlers

When an animal moves to or from the showground the following steps need to be taken:

- Keeper reports movement off holding to SAMU
- Livestock secretary reports movements on and off showground
- Keeper reports movement back on to holding within 3 days of show.
